# FINANCIAL AND COMMERCIAL.

### MONEY AND STOCKS.

New York Financial Market. NEW YORK, May 19.-Money-On call easier at 1

Frime Mercantile Paper-405 per cent.

Foreign Exchange-Quiet and unchanged. The sales of stocks to-day were 167,712 shares, including Delaware, Lackawanna and Western, 28,956; Louisville and Nashville, 6,315; Northwestern, 17,110; New York Central, 22,000; Pacific Mail, 19,000; St. Paul, 18 000; Union Pacific, 28,230; Western Union, 13,300.

Government bonds have been quiet at unchanged quotations and easier, an advance of 1/4 Figh Mixed..... in the price bid for currency sixes. There were sales of the 3s at 10314, and the 4s coupon at 12178. State bonds have been quiet and quotations generally strong, specially for some of the Missouri, Louislana and Alabama issues.

The stock market to-day showed a sudden relapse into duliness with only limited fluctuations in quotations. Only three of the usually active stocks show changes for the day of as much as 1 per cent., and those three stocks belong to the socalled Gould stocks. Total sales were 167,700 shares. The result of the day's operations is an irregular closing of the list, about an equal number of stocks showing advance and declines. For no cause that became apparent to the street, Pacific Mail was weak during the forenoon and barely steady there until about the close, when it again yielded a fraction, and is down this evening 1% below yesterday's price The present manag-ing is issuing a circular asking for proxies to be used at the forthcoming annual election. Rumors have been in circulation for the past twenty four hours to the effect that a serious defalcation bad been discovered in the Union Pacific. It was stated last night that the papers in this city and Chicago were to publish a detailed account of the matter. It was said the rumor was based on claims by the Kansas Facific income bondbolders. The officials of the company make a most emphatic denial of the whole story, saying it has no foundation in fact. A dispatch was received this afternoon from the Union Pacific office in Boston saying that rumors of a defalcation in the company was a pure fabrication. Friends of the company was a pure fabrication. Friends of the company believe the story was started by the bears in their desperation for some means of depressing prices. There was a great demand for Union Pacific stock after the opening of the board this morning, which came principally from the short sales made yesterday, but the price remained strong, and during the It was said the rumor was based on claims by the but the price remained strong, and during the day it advanced 11, and closed with a gain of 1/2. Lackawanna was steady at a fraction above 103, with sales in the morning, seller sixty days at 106. The Grangers were quiet and strong all day and closed with only a slight advance over yesterday evening. New York Central also showed some strength, and \$26,000,000 of the stocs is entered with Morgan Co , London. There is an effort being made on the other side to secure control. The bears, late in the afternoon, made an attack all along the line, which led to the weakness of most of the stocks in the last half hour Rumors of a concentrated bear attack were again in circulation this evening. Nevertheless the bulls claim that the market is heavily oversold and that they have it so well in hand that the move of prices must be up for some time.

The railway bond market continues active, and is influenced apparently very little by the stock market. The total sales to day were \$1,190 000, the business being very well distributed, and prices this evening show irregular changes as compared with the last previous sales. Figures have been obtained to-day from the officers of the Chicago, Rock Island and Pacific Company in this city, from which the following comparisons are made of the business of the company for the year, ended March 31, 1885: Gross earnings, \$12,206,900, a decrease as compared with the amount earned last year of \$328,384: operating expenses, \$7,160,300, a decrease of \$'37,702; net earnings, \$5,0,6,00°, a decrease of \$190,914; the fixed charges were \$1,594. 60, being an increase of \$113,345; the net land sales fell off from \$740,000 to \$330 000; after paying a dividend of 7 per cent. amounting to \$2,937,000, there was left a balance this year of \$815,000, against \$1,289,070 in 1884.

# COMMERCIAL.

Jobbery in dry goods circles was rather light, though considerable trading was done. There is a fair demand for groceries, but prices are not | 8 quotably changed. Dairy products continue weak and dull. Oils are quiet and steady. Green vegetables are in good demand. Strawberries are plentiful and cheaper. Eggs are unchanged. Poultry are scarce and advanced.

GRAIN.

Wheat-While slight advance in prices, general tone of market is dull. Receipts light. Futures | grades, \$640 per lb. have no friends. New York and Baltimore are 1c bigher, and Chicago steady.

Corn-Dull and steady; few inquirles and light offerings, while seaboard is active and higher. New York advanced 23/c, Baltimore 13/c, and Chicago is 1 c higher.

Oats-Dull, and prices are off. The following: able shows the amount of grain

Receipts-Hogs, 14,000 head. Oar lots-Wheat, 150; corn. 329; oats. 168 [Special to J. A. McKee, Grain and Provision Broker, No. 21 Board of Trade.

CHICAGO, Ill., May 19 .- Wheat firmly held during the early part of the morning session. The strength was due to a decrease of a million bushels in the visible supply, the cold weather, and caoles quoting the English markets firm. The market acts as if tired, and bulls are disposed to unload and await a decline in the market before increasing their holdings. There is no change in the situation, but a general feeling that wheat will sell lower before advancing. We do not advocate short sales, but would advise caution in buving except in the event of a decline in value. Wheat closed easy; July, 91%c.

Corn strong. The decrease in the visible supply a million and a half bushels. Receipts are likely to increase from this on. It is a very uncertain market owing to the extreme light stocks. which makes big short selling dangerous. Values appear to be high.

## MARKETS BY TELEGRAPH.

Produce Markets.

CHICAGO, May 19.—Very few features of interest were developed in the trading on 'Change to-day and nothing sensational Transactions both in wheat and corn were on a moderate scale, and the early feeling was one of firmness, but became casier later in the day, and both cereals c osed somewhat under the closing figures of yesterday. The tracing in wheat was mostly local. The visible supply showed a decrease of 900,000 bu. The weather was cold and unseasonable. New York and St. Louis were quoted strong and higher and Liverpool was quiet and steady. Corn led the rise and wheat advanced early, partially in sympathy. Crop advices continue unfavorable. Influenced by a decrease of 1,680,000 bu. and a slight stock in store, the "shorts" in corn were anxious to cover, stimulated some by fears of manipulation. Receipts were smaller than had been anticipated and the foreign markets were firmer. The market advanced 1@11/4c, but fell back gradually and closed in the alternoon about the same as yesterday. Speculation in cats was light, but the feeling was firmer and the market closed generally higher.

Provisions ruled firm and a shade higher. Flour

2,006,000 bbls; runs, 74,538 to bbls.; charters, 38,573 bbls.

at \$1 15@1 25. THE OLD GAG IS ALL RIGHT.

New Jersey Goes Down in the Official Record as a Foreign Country. New York Herald.

When the Norwegian Steamer Hekla of the Thingvalla Line sails for Christiania today the will take out a party of native Scandinavians who have settled in the United States, but who are going on a summer excursion to their old home, to return to America in a short time. The party is a large one, and consists principally of farmers in the West and their wives and children.

As an accommodation to the steamship company and the travelers the Emigration Commissioners gave permission for the party to rendezvous at Castle Garden, and yesterday afternoon the Erie tender John M. Abbott transferred to Castle Graden 236 of the excursionists fro Hoboken, where they had just arrived from the West on the Erie Rail-

The Custom-house officer, not having any permit for the landing of "the John M. Abbott, from Hoboken," was puzzled. He had heard of Hoboken as a foreign port, but he had never heard of any transatlantic steamer named the John M. Abbott. The matter was finally explained. The clerk who bulletins the immigrant arrivals very methodically recorded in big letters, "The John M. Abbott, Hoboken, 236," and the West Shore Railread Agent who telegraphs the immigrant arrivals to Chicago promptly sent over the wires the fact that a steamer had landed 236 immigrants from Hoboken. Thus Hoboten, N. J., has gone down in the official record as a foreign port.

### General Lee's Death. Boston Budget.

The death of General Robert E. Lee, at Lexington, Va., on the 15th of October, 1870, removed an important actor in the recent civil war. In the South, where he was best known and most beloved; in the North, where his military genius and worth as a private citizen found due recognition, and in Europe, where his skillful generalship and personal courage had won him high renown. the tributes to the memory of the departed southern chieftain have been generous, enthusiastic, and worthy of his fame. It may be truly said that personally General Lee hed not an enemy. His heart overflowed with love and charity toward all mankind. He drew his sword in the civil war from a sense of duty to his native State; but when he sheathed it again, under the apple tree at Appomattox Court-house, there was not a stain upon its blade. Even those who were opposed to General Lee upon the battlefield were as ready as his most intimate friends and ardent admirers to testify to his well-

deserved fame as a military leader, as well as to his many private virtues.

General Lee, shortly after the surrender at Appomattox, became President of Washington College, at Lexington, and devoted himself to the duties of that position. He was taken sick on Wednesday evening. September 28. As he was about to take his seat at the tea-table, he sank in his chair and became insensible. A reaction soon set in, however, and in the course of the ten days following he steadily improved, until it was hoped he was out of danger. But on the following Monday evening he became suddenly and rapidly worse, and continued to sink until death claimed its victim. During the early part of his illness he slept much and spoke seldom, but was rational when awake, and always recognized those at his bedside. At times his mind seamed to wander, and on several occasions reverted to the army. He once ordered his tent to be struck, and at another time desired that "Hill should be sent to the front." He suffered but comparatively little pain during his whole illness, and expired very quietly and peacefully at 9:30 on Wednesday morn-

A correspondent of the Rural Record urges the necessity of training the boys of the farm to habits of industry, that they may learn the value of money; but he justly reasons that this training will be best accomplished by avoidance of overtaxing and by giving the boy a pecuniary interest in the product of his labor, letting him spend the money thus earned as he sees fit, but encoursging judicious investments by precept and example.

Mr. W. W. Heywood writes to the Rural World that he has a good word to speak for corn fodder: "I saved 376 shocks, ten by ten hills," he says. "and have realized more than \$50 for it, while the stock relished it. I taken shock down, husk the corn off, and tie the fodder in two bundles with tarred rope, making it very convenient to handle."

The greatest good to the greatest number is the doctrine of every true patriot, and this is a desideratum reached by the new specific, Athlophoros. Thousands of sufferers from rheumatic and neuralgic complaints attest its value in the benefit they have derived from the use of this great enemy of disease. Mr. L. H. Patterson, who suffered for a long time and had given up all hope of relief, was cured by one bottle, and he writes that he has not been troubled since.

Natural vegetable acids do not harm milk. but the artificial acids of fermenting food introduces an element into the consumption that it is not possible for nature to neutralize, and hence effects the milk. The amount of ferment may be small and do little injury, but if carried beyond a certain point will have a deleterious effect, which experiment, time and again, has demonstrated.

"I Don't Want Relief, but Cure,"

is the exclamation of thousands suffering from catarrh. To all such we say: Catarrh can be cured by Dr. Sage's Catarrh Remedy. It has been done in thousands of cases; why not in yours? Your danger is in delay. Inclose a stamp to World's Dispensary Medical Association, Buffalo, N. Y., for pamphlet on this disease.

At a recent sale of Holstein cattle at Troy. O., thirteen cows averaged \$356 54, twenty two-year olds averaged \$294 50, fifteen oneyear olds averaged \$224 50, four two-yearold bulls averaged \$322 25, five one year-old bulls averaged \$233 and thirteen spring calves averaged \$177 69 The average for the seventy was \$266 50. Three herfers were sold privately for \$1,000.

"The Dyspeptic's Refuge "

"I am thirty-five years old," writes Mr. Charles H. Watts, of West Somers, Putnam County, New York, "and had suffered from dyspepsia for fifteen years. The current treatment did me no good. Listlessly and without hope I gave Parker's Tonic a trial. I can give the result in three words: It cured me." It will cure you.
